Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action acknowledges the Preliminary Amendment filed 18 April 2005. Claims 5-10 are pending in the application. Claims 1-4 have been canceled.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(m) because the shading provided by the applicant reduces the legibility of the invention.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 5-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Bourset (US 6,086,823).

Claim 5: Bourset discloses a contact lens case with a base 1, two independent containers 10 & 10', each container comprising an outer wall 2 & 2', an inner wall 31/32 having a height greater than the height of outer walls 2 & 2' (see Figures 1 and 2), an enclosed chamber 30 & 30', at least one opening 33, and an enclosed space between the inner and outer walls fluidly connected to the chambers 30 & 30' (see Figures 1 and 2). Although Bourset discloses the lens between the inner and outer walls, it is fully capable of retaining a lens within chambers 30 & 30'.

Claims 6 and 7: Bourset discloses the outer wall having an outer surface that is cylindrical (Col. 5, line1), and hemi-spherical chambers 10 and element 30. Accordingly, the walls have an annular configuration (see also Figures 5, 7, 9, and 10).

Claim 8: Bourset discloses slots 33 (see Figures 6 and 7).

Claims 9 and 10: Bourset discloses lids 20 & 20' and screw threads on outer wall (see Figures 1-3).
